

10 points to remember about Frameless Glass

1. SSI Glass is completely frameless, although support bars may be required for larger enclosures, and made bespoke for each individual space.
2. A site survey is carried out when all the tiling and shower tray or flooring is completed.
3. The lead time is approximately 5 weeks from the survey date.
4. The final price is dependant on the survey. Quotes may increase in price, as well as decrease as a result of the survey.
5. The end user must be on site for the survey along with the Installer/Architect or Designer.
6. Frameless glass is not 100% waterproof.
7. The shower head or hand shower should not be fitted where it will be directed at the door.
8. The glass can be fitted onto a tray or onto tiles for wet room look. A specialist installation is included in the survey charge.
9. 4 man help is required on site for delivery.
10. All SSI glass is special order and is non cancellable and non returnable. The survey charge is non refundable if an order is not placed.
